

SSR LLC ANNOUNCES CARL RINALDI TO JOIN AS A PARTNER AND HEAD OF SALES

Stamford, March 11, 2014 - SSR LLC (SSR) is pleased to announce that Carl Rinaldi joined its leadership team on March 11th 2014 as a partner and as Head of Sales. Carl brings 32 years of experience in the financial markets, the last 22 of which were at Sanford C Bernstein where he was most recently Head of US Hedge Fund Sales and Head of New York Metro Sales.

“Carl brings a wealth of relevant and important experience to SSR”, said Managing Partner, Graham Copley. “He is well known to a large number of investment managers across the country and is particularly good at matching client needs and investments styles with the right research”. “This is an exciting time for SSR”, said Copley “as we have substantially increased our research offering over the last year, focusing on an in-depth thematic approach that leads to robust near and medium term investment ideas at both a sector and a stock level”.

“This is a very exciting opportunity for me”, said Rinaldi. “I have always felt that my job is to make money for my clients. That is what I was able to do in my prior roles, and with the high caliber of the research analysts at SSR, I look forward to continuing to do so here.” “Throughout my career I have had the pleasure of knowing many of the best and brightest investment managers in the equity business. The one common theme is that the best money managers are some of the best listeners. With the research at SSR, I am confident we will continue to be heard.”

SSR is an independent research provider focused on uncovering the major themes and issues that impact broad segments of the economy and identifying investment opportunities at both the sector and stock level. Our current research verticals (that cover 80% of the S&P 500) are headed by senior experienced analysts who have all attained top public rankings at other firms. Many have industry experience and/or experience on the money management side of the business. We have sales distribution across the US and have recently expanded into London.
